

Your proposal to give priority to Low Power FM (LPFM) over FM translator service is endangering my radio stations. K-LOVE is one of those stations. They provide an irreplaceable service to the local community as well as the national community. They provide music I would be unable to get without them. They also provide an outlet for local groups to get their message out. K-LOVE has a positive message that has affected the lives of thousands over the years. This proposal would close off one of the only avenues to get the message to the hurting. Their effect cannot be measured in dollars. It is measured in lives. You may not understand, but God works through his people, and his people work through K-LOVE.
